

Fire crew thankful for Tim Brown's efforts

Editor, Advertiser:

The New Canaan Fire Department wishes to acknowledge and thank Tim Brown, a life-long resident and the owner of Brown Thayer Shedd Insurance, for his efforts to promote fire safety in our town.

Due to Tim's business acumen, perseverance and ability to work with many constituencies, the fire department was able to successfully install a "dry hydrant" on West Road.

Working closely with Fire Marshal Fred Baker, homeowners, especially

the Arrix Family, and insurance companies, Tim promoted the idea, assisted in the planning and followed through to complete the project. Now residents in another part of town are better protected by the fire department's increased access to available water.

We commend Tim Brown for his efforts and thank him for his civic-minded spirit.
